

ESHH 3041 hydraulic

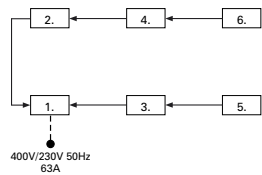

IME-AUTOLIFT
Autolift GmbH

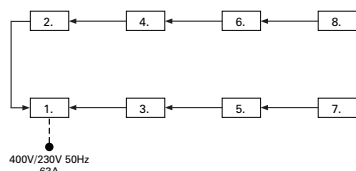

types, arrangement

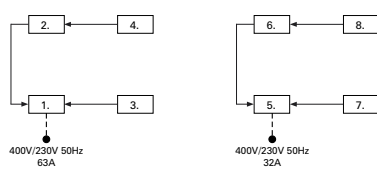

ESHH 3041 – 4 column set

ESHH 4561 – 6 column set

ESHH 6082 – 8 column set

ESHH 6082 – 2 times 4 column set

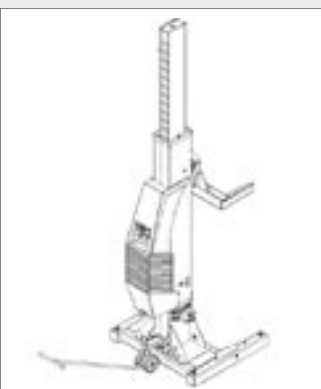

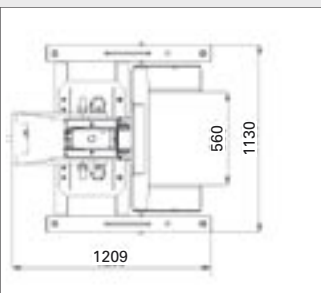

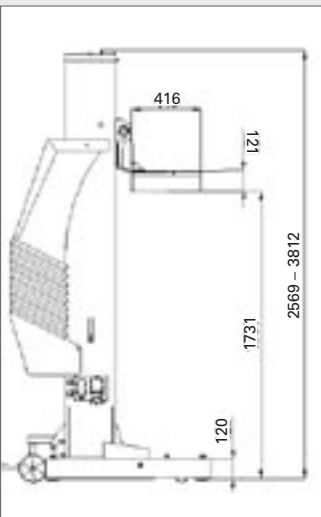

mobile column lift

IME-AUTOLIFT

Autolift GmbH

IME-AUTOLIFT hydraulic mobile column lifts are very easy, fast and smooth to operate. Longlife high technology for a fair price was essential for this construction. The long knowledge from IME-AUTOLIFT in the mobile lift business becomes here a very positive matter.

On each column you can connect the Hand Control by a quick coupling. With the Hand Control it is possible to choose and control all function, single or pair operation or synchronized group operation with 4, 6 or 8 columns.

This is until now exclusive by IME-AUTOLIFT and the worldwide users are very impressed of this system.

hand control

signal lights, emergency stop and connection plug for handcontrol on all columns

options

adjustable trolle

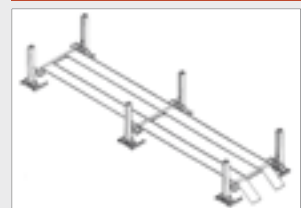

axle stands

hydraulic trolley

trailer traverse

ramps
